

Isaac Ferrante

JUNIOR SOFTWARE DEVELOPER, PRODUCT OWNER

Employment History

IT Intern, Zeta Financial, Floriana

JUNE 2021 – PRESENT

1. SEO Assistant- I am given a monthly budget where I control all SEO and SEM, paid and organic, and ensure to receive better results than in past months, always aiming to increase results for a lower amount inputted. I also manage all Social Media and advertising platforms.
2. IT Assistant- Managing all websites, domains, and servers related to the company.

App Developer & Web Developer, Inoona, Sliema

JUNE 2021 – JULY 2022

App Dev

1. My main position was to work on the front-end of the application, The head of UI was my role where I managed the appearance of the application using applications such as Figma and coding languages such as HTML, CSS, and JS.
2. App Backend, I assisted with some of the core features of the application, this was done with PHP and MySQL.
3. App Servers, ensuring that backups were constantly being taken, clearing storage, and managing the database on PHPMyAdmin.
4. Managed two interns over the code implemented into the application, analyzing and funneling through their code in order for the least bugs possible.

Web Dev:

1. During my duration as a Software Developer at Inoona, I also got myself involved in the web development of the website, I solely created this website from scratch using HTML 5, and CSS 3 together with Javascript.

Core Languages used during my duration were: HTML 5, CSS 3, PHP, MySQL, and JavaScript.
